

MiGAEL

MANUAL DRIFTING-MINING

OCULUS QUEST

THE GOAL

Open the tablet (Workcard).
Examine the environment
according to the Tablet and check
if things are in order or not. When
you are ready press "Done" and
see did you get the answers right.

You can find the Gas Detector
and the Radio in the InGame-
Menu.

HAND TRACKING

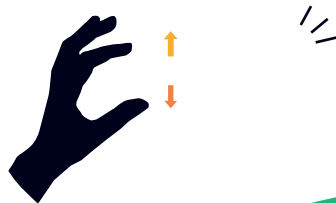

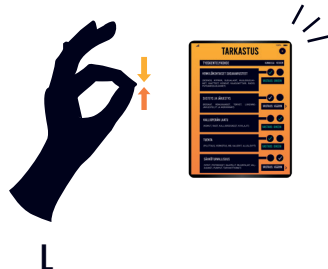

The game works with hand tracking.
Move around and select objects by
touching them or making gestures
with your hands (see below).

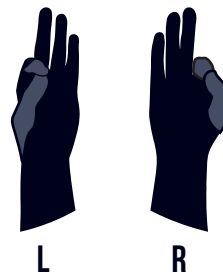

The tablet works like a touch screen:
slide to see the whole page.

THE TABLET

Pinch your left thumb and index finger
together to pick up the tablet. When
you free fingers from the pinch the
tablet will disappear.

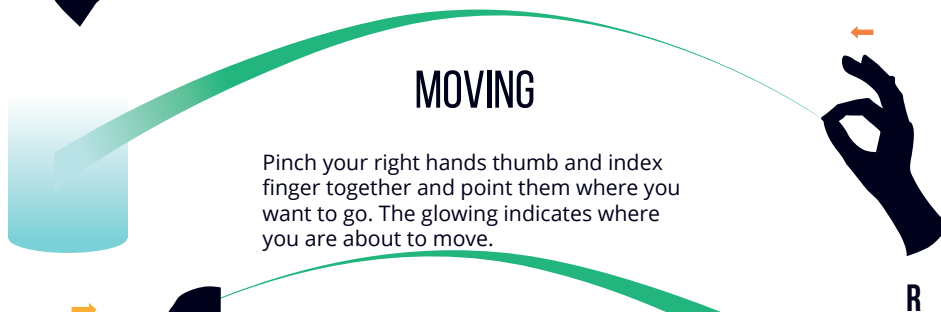

OPENING THE MENU

Pinch your thumb and index finger
together with both hands and point
them towards yourself.

MOVING

Pinch your right hands thumb and index
finger together and point them where you
want to go. The glowing indicates where
you are about to move.

CANCEL

By keeping the fingers pinched and then
facing them toward yourself you can return
to your previous post after moving.
